October of 2023, I started on my EP journey, and I began to write and self record and experience things in a relationship that I had never experienced before. The EP titled "SEASONS" is my personal experience and firsthand account of how much mental Health can play a part in affecting partnerships, relationships, and being able to control your emotions, I've experience so many hardships and heartbreaks in relationships and it always seems to be like there was a lesson to be learned, I know that the lesson I successfully learned is that I unconditionally love myself. Have confidence. Confidence is the best key of consistency once you learn that everything will be ok no matter what others say.

# Yung Rydah

Rockingham, NC's own unsigned artist, Mark Hyde Jr A.K.A. Yung Rydah was born on 4/22/1994 & has been making music since the age of thirteen. Rydah started rapping with fellow friend, Rashaad Leak, and his cousins PJ (Glo) & Shaun (Retro). While rapping together, Rydah grew his confidence and saw early he was meant for Hip Hop and destined for it. With the likes of DMX delivery and style, Yung Rydah was inspired by the rapper's Ruff Ryders presence. Music is everything to the Rockingham rapper, so much so, he refers to it as his calling. Writing and recording is where Rydah thrives as he envisions bringing his raps to Life. Yung Rydah adopted his own style being born in Rockingham and raised in Charlotte, NC. Some of that style adapted, is credited to his short residency in Texas. In Wichita Falls, TX is where Rydah started to gain his real fanbase. Starting from dropping songs via SoundCloud in 2012-2013, he began to gain a buzz with the song "House Party". He was only a featured artist on the song, but his verse made people want to tune in more with his music. He later dropped more music & from there he kept going. His music catalog is big, with him releasing seven mixtapes, 2 EP's, a select few singles, & his debut album "SOMEWHAT Famous". His biggest song is the smash hit single "Or Whatever" which he released at the beginning of 2020. It grew to be a major success at the start of the COVID-19 outbreak. Rydah has come a long way, and his career mission and goal are to take care of his family and those around him.

**SM- What message are you hoping to get across to the people by doing what you do?**

See the name, know the face, & don't forget the voice. You going to see a lot more of Yung Rydah & the #MTM4LMG team. Get used to hearing that!

**SM- Tell us about what you're promoting and the details around it?**

I am currently promoting my official debut album "SOMEWHAT Famous". Ten songs no features all me.

**SM- What's unique about this that separates it from the rest?**

Always have a professional mindset, and don't mix friendships with business. Be about the money & go on about your day.

**SM- Who was a part of this project that contributed to its success?**

Yes, this project would not have been anything without the help of my engineer Willy Franko. He's done work with major artists such as DaBaby, Stunna4Vegas, Boosie Badazz, Quavo, Lil Baby, Bossman Dlow, & the list goes on. It also wouldn't have been anything without the help of my bro Kay Escobar, the 4L Street Team members Kunta, Guapo, Dae, Jayden, Lil Mac, J Bonds, & the rest of the team. They were very supportive from beginning to end.

**SM- What is the inspiration behind what you do?**

My motivational factor would have to be my kids. Every day I wake up & go to work, or the studio, anything I do I think of them.

**SM- What are some other things people can expect from you in the near future?**

You can expect a lot from me, that being music videos, new music, interviews, shows, all of that. 2025 will be a good year for Yung Rydah, we going to call it RYDAH SZN!

**SM- Why is this so valuable to you? And why now?**

I would have to say fake love & betrayal of former friends or people I had underneath my #MTM4LMG platform. I didn't gain anything genuinely wanting to help other artists around me, but I did lose wasted time I could have been putting into my own craft.

## Fitness sankey313

### SM- What message are you hoping to get across to the people by doing what you do?

I don't do it for the money. I do it for the enjoyment the love for the fitness industry and keep a smile on my clients face for them to reach their goal I come from nothing I come from my environment where there is no help so I know how I feel to not have nobody and I promise you once you get to know me you feel the same way now, I'm married me and my wife owns Taylor Nutrition.

### SM- Tell us about what you're promoting and the details around it?

I have been in the fitness industry for over five years I started off at 270 pounds one day I was looking in the calendar and my wedding was 10 months away so I had told my future wife that's my wife now we are not walking down me looking like this because I got up to 270 during the pandemic I worked out seven days a week for 10 months straight got down to 170 in 10 months and taking classes to get certified as a personal trainer and I've been doing it since. I love it. It brings me peace. And I love, helping other people achieve their goals.

### SM- What's unique about this that separates it from the rest?

Getting to know the person. I'm a personal trainer you deal with different types of people different attitudes. Your personal trainer is a therapist a friend all in one.

### SM- Who was a part of this project that contributed to its success?

No, the person that was supposed to teach me everything never showed now he wants to work with me and I won't give him the time of day. I had to figure out everything by myself.

### SM- What is the inspiration behind what you do?

Health because when we were kids what they told us to put in our bodies was no good for us so when I learn what to put in or what not to put in my body, it became easy people don't realize your body is like a car the difference between them the car can get all the work done on it but eventually, it will break down permanently with the body.

### SM- What are some other things people can expect from you in the near future?

I'm going to give 110% as long as they are willing to do the work person training is not an easy job but your clients can make it easy for you. I'm the best trainers in Michigan.

### SM- Why is this so valuable to you? And why now?

Time effort energy, not enough time in the day, but I got where I need to be and I stop making excuses because at the end of the day if you do not believe me yourself nobody else will if you do not work nobody will only have you and it starts with you.

*"Little Boss Lady"*

# Sharon Ford

We Rollin' Records is an independent record label founded in the late 1990s by Sharon Ford. The label was incorporated in the state of Maryland in 2013. Sharon is a native of the Nation's Capital. Her initial goal was to pursue a career in cosmetology. After becoming a licensed cosmetologist in Washington, D.C., she received advance training at the Vidal Sassoon School of Hair Design in London, England. Her cosmetology career came to an abrupt halt due to a severe allergic reaction to cosmetic chemicals. Sharon chose acting, modeling, then rapping which prompted her to attend the Maryland Academy of Dramatic Arts and later studied at the Collier Casting Acting Center in New York. She got her first acting job as an extra in numerous scenes on the 1989 television series *A Man Called Hawk* starring, Avery Brooks, who's best known for the 1990s T.V. series *Star Trek Deep Space Nine*. She appeared as an extra in Spike Lee's *Malcolm X* and the MTV *Direct Effect Show*. Sharon also did promo modeling work for E&J Brandy (Liquors). Sharon later worked as a music critic for a D.C. based hip-hop magazine called, *Straight From the Street* in the 1990s where she attended many albums release parties and events for recording stars. Sharon also recorded a few rap songs produced by Vaughan Mason who's from the 80's funk group, Vaughan Mason & Crew with popular hits such as: *Bounce Rock Skate Roll*. In the 1990s, she traveled to Lorain, Ohio to rap on a track co-written by R&B artist, David Tolliver from the duo *Men At Large*. Sharon's first stage performance was at the 2002 Tampax Total You Tour featuring guest speaker Queen Latifah. Sharon performed at Howard University's 2003 Homecoming Concert hosted by comedian Cory "Zoo" Miller, featuring comedian Lavell Crawford, both from BET Comic View. After researching the possibility of running her own record label, Sharon began to focus on building We Rollin' Records. In 2004, while working at a Maryland manufacturing company, she discovered Terry Rice, Sr. also known as Dzol. In 2013, Sharon arranged for celebrity music producer, Jaywon to produce a demo written by Dzol called "Let Dem Haters C Us." Jaywon arranged for rapper Jeezy to be featured on the demo. After the demo was completed, she arranged for Dzol to record his 12-track debut CD produced by Don Vito, who's an Atlanta based multi-platinum music producer. Vito is credited with hits for recording artists such as: Nelly, Ciara, and many others. He also produced the 2010 theme track for the Soul Train Awards red carpet event. Vito was the co-star of the 2013 reality show, *The Kandi Factory*. In December 2015, Dzol's debut single produced by Vito entitled, "Turnt Up" was released. The track is a vibrant, high-energy song. "Turnt Up" can also be found on DJ Ron G's March 2016 mixtape entitled "I Got It on Lock" featuring artists: Swizz Beatz; DMX, Iggy Azalea; Drake; LL Kool J and many others. Other tracks Vito produced for Dzol includes: "Own That" and "I Rocks," both display that raw club vibe. All Dzol's singles can be found on the digital music outlets including Spotify. The completed 12-track CD produced by Vito is orthocoming with a track entitled, *Money Callin'* featuring rap artist, Cap 1 and Sharon is also featured on the track. Another heart-pumping party track entitled, "I'm Baltimore" is a song that pays homage to the pro-football team as well as Dzol's roots in Baltimore. February 13, 2016, Sharon arranged for Dzol's first debut concert performance

at the Migos DAB Tour in Rochester, New York. In August 2016, she arranged for Dzol to become the opening act for the Ja Rule/Ashanti concert at the ElectricFactory venue in Philadelphia. In 2017, Dzol and We Rollin' Records parted ways amicably, so Sharon found another Washington, D.C. artist, Moe Gatz. Vito produced two tracks for Moe entitled, *Pockets on E* and *Okay*. *Pockets on E* is a track Moe wrote about people not living up to their full potential for success. *Okay* is a track about the people who have supported Moe. Moe writes his own lyrics, and he's inspired by life's challenges. In 2018, his track *Ok* reached number 1 on the DJ Digital Charts and in 2019, *Pockets On E* reached number 1. This led to Moe's singles being selected for airplay by 60 mainstream radio stations in the U.S. and a few stations outside the country in November 2019. This includes Sharon's hometown Washington, DC radio station 93.9 WKYS and other popular radio stations with celebrity DJs such as Big Tigger from V-103 (WVEE-FM radio) in Atlanta, Georgia. Moe's tracks can also be found on all the digital outlets worldwide, including Spotify. During the pandemic of 2020, the music and entertainment world came to an abrupt halt. During that time Moe decided to leave music. In 2022, Dzol returned to We Rollin' Records and by that time, Sharon had developed a business relationship with CSP Music Group founded by Christopher Starr based in Atlanta, who's credited for working with Beyoncé, Ed Sheeran, and a host of others. In 2023, CSP Music Group's Sam Peezy, produced a track for Dzol called, "Go Out and Get It." This is a track about achieving your goals despite obstacles. Peezy is a Grammy nominated & Billboard charting producer who has worked with Emcee N.I.C.E.'s number one Billboard gospel track "Glory to God" the 69 Boys; Raheem Da Dream and many others. "Go Out and Get It" was released on all digital outlets in November 2023 and reached number five on the DJ Digital Chart. This track has been fluctuating high on the DJ Digital Chart above and below artists like Cardi B; Usher; Drake, and Chris Brown since August 2024. Sharon's forthcoming plans include more concert performances for Dzol. He has a ton of completed tracks

that are scheduled for release. Sharon also has a few more new potential artists that she plans to work with.

## **SM- What message are you hoping to get across to the people by doing what you do?**

I want readers to know that We Rollin' Records will be more than just an entity that puts out great music. Our role will not be limited to just entertaining the fans. It's important for me to give back to society, especially when we are blessed to do so. Entertainers who serve the public have an obligation to inspire young people. I'm not perfect, but I'll do my best to fulfil my obligation as a positive role model with the moral integrity that's expected of me.

## **SM- Tell us about what you're promoting and the details around it?**

I'm currently promoting my Hip-Hop artist Dzol and his latest single "Go Out and Get It" which was produced by CSP Music Group's Sam Peezy, a Grammy nominated & Billboard Charting Producer who's worked with Emcee N.I.C.E.'s number one Billboard gospel track "Glory to God" the 69 Boys; and many others. Dzol's track "Go Out and Get It" has been fluctuating high on the DJ Digital Chart above and below artists like Cardi B, Usher, Drake, and Chris Brown since August 2024.

## **SM- What's unique about this that separates it from the rest?**

What's important to me is being respected. Having respect for me and giving me a chance to prove that I have what it takes to succeed is high on my list. There was only one African American female record label founder that I know of and that was Sylvia Robinson, founder, and CEO of the successful hip-hop label Sugar Hill Records. I was a fan of the Hip-Hop hit songs her artists made in the 1980s. I also admired her for breaking those barriers. She was highly respected in the business and that's why respect is high on my list.

## **SM- Who was a part of this project that contributed to its success?**

There are plenty of supportive individuals and I couldn't have done it without them. One being Atlanta-based, Grammy nominated music producers Don Vito and Sam Peezy. My current business relationship is with Christopher Starr, Founder & CEO of CSP Music Group, who's worked with accomplished artists such as: Beyoncé, Ed Sheeran, Usher, and many others. Working with an established company like CSP who's known for marketing and promoting current recording stars make me feel as though I've "arrived." I realize that I'm on the same professional level as other independent record labels. I also feel a sense of accomplishment knowing I'm on the right path to success.

## **SM- What is the inspiration behind what you do?**

God is my motivational factor. Every time I have a set-back, which have been many, I'm reminded by Him that it's just temporary because He continues to put forth the right people before me who can help me to succeed.

## **SM- What are some other things people can expect from you in the near future?**

People can expect to see my artist Dzol in forthcoming concerts performing his current track and other hit tracks "Own That" and "I Rocks," both produced by Don Vito. People can expect a ton of new music from Dzol that's ready for release. I also have other potential new artists that will make their debut soon.

## **SM- Why is this so valuable to you? And why now?**

The most challenging was getting the recognition I needed to work with top executives and music producers in this industry. I had to build a clientele and to do this I needed talented, dedicated artists on my label. This isn't as easy as one might think because artists are fickle, and you go through many ups and downs with them. Building that clientele was difficult and stressful but with faith, perseverance, and determination I was able to get it done.

# The Black Boy King

## SM- What message are you hoping to get across to the people by doing what you do?

I'm definitely blessed and I appreciate all the love and support my fans have shown me so far. My followers on Instagram for being so supportive. I'm so blessed to have my family with me and we are grinding. Kingdom House Records continues to evolve and build on the sound of The Black Boy King and I'm really excited about what's coming up as we are moving at light speed. I want to send a huge shout out to everyone who has supported me thus far, I never forget. I love each and every one of you and I can't wait to push this music out to the forefront.

## SM- Tell us about what you're promoting and the details around it?

Latest single "Ain't Money to Me featuring Gucci Mane" out now on all platforms. Also promoting the artist, himself to build his fanbase, spread awareness of his music and bring exposure and notoriety.

## SM- What's unique about this that separates it from the rest?

God stands first. I wasn't always a Saint and definitely am a sinner, but I try to do my best each day for what God expects from me and that's being the best version of myself, having faith in him, and keeping those 10 commandments as a major part of my life. So, I take that into account when I'm running my record label. I only like to work with hard working individuals, people with vision and that are responsible ready to work and build something. Honesty and Integrity are important, business people who do what they say they will do. Not just a bunch of talking and false promises. If you aren't talking about building and making serious money, then you are playing and wasting time. I try to stay far away from time wasters and try to identify people who really buying into the vision, or riding coat tails hoping they come up off my grind. Winners focus on winning; losers focus on what winners are doing.

## SM- Who was a part of this project that contributed to its success?

Yes, my producer, Anno Domini. He's been fantastic and I've worked with him and Oli Temper and the Legion. They've help me so much with my sound. They were able to broker the Gucci Mane verse through their relationships so along with this song, Sean Kingston and Rick Ross, I've been fortunate to leverage this business relationship into some dope songs that will expose my music to a larger audience and build my fanbase. My album won't be feature heavy, but will definitely have some familiar names along with creative songs written by myself. I've got a solid team behind and always looking to do more, work with more people, but like I said, we have to be on the same page and the same mission. I'm trying to bring something new to the rap game. A lot of artists sound the same and do the same thing. Social media has really taken the creativity away from being an artist because now it's all about social media stats and being a clown for clicks. That's not what being an artist is. It's about making great music and sharing your experience with the world, your world view, you know. It's about what you going through and what you experienced in your own life. Not copying someone else's entire swag.

## SM- What is the inspiration behind what you do?

The music making process and seeing people's reactions whether good or bad to any new songs or ideas I have as an artist. From beat production and working with producers to working on melody and song structure and writing song lyrics is something that gets my creative juices flowing and creates such a buzz and exciting environment and then several hours later we have something we can really work with and get feedback on. If it's good feedback we continue to work on it until we have a song ready to release. Meeting new people and seeing new places is also something

that keeps me working on music, expanding my fanbase and leaving my dent on the rap game with my own sound and my own unique identity.

## SM- What are some other things people can expect from you in the near future?

Continuing to work and build this label and working with more artists to make some great music. I'm still promoting my music; I'm dropping a mixtape soon which will feature remixes of my previous songs that streamed well and my 1st album titled 'Sin City' will be ready to drop early 2025.

## SM- Why is this so valuable to you? And why now?

Overcoming poverty and despair. My brother and I didn't have anything easy growing up. We had to scratch and claw for everything we had. Little to no one actually helped us or supported us so we've had this us against the world mentality for as long as I can remember. We were even homeless at times and times we real rough, but we made it through. We moved to different cities and even when things started popping there was always a hater standing in the way. This experience made me realize that in order to make it in this world, you have to be stone cold, but also keep your faith in God. My faith in God allowed us to endure and overcome as well as be built for this time and the responsibilities that come with being successful. I speak about a lot of this in my music because my music is a reflection of me and my experiences. I've also overcome several life-threatening instances and am really surprised to be alive and be here. Staring death in the face several times can really put things into perspective.

**SM- Who was a part of this project that contributed to its success?**

I have to give credit to engineer "Kush Tracks" for the dope mix... even my team and family for pushing this song I actually got recognition from Sukihana & Dave East about possibly featuring on the song.

**SM- What is the inspiration behind what you do?**

I love to inspire people, The fact I get positive feedback every day on my journey to success keeping God first I've never been a quitter and so far, I'm getting closer than I ever been

**SM- What are some other things people can expect from you in the near future?**

I have an ep in the makes yall just have to tap in me it took some time had to get the money right we shooting the video to the song I Heard in December I recently took some acting classes so me and the team working on skits as well.

**SM- Why is this so valuable to you? And why now?**

Dealing with people who I thought had the same vision as me and wanted to see me win just as much as I wanted them to win, I had this motto if I win, we all win we all eat they didn't see it that way) I

had to move on and leave them behind in order to move forward within my career I had to pay attention to what god had for me.

**SM- What's unique about this that separates it from the rest?**

Integrity is vital when it comes to your brand. There will be people who have their own perception and dreams about your brand that are completely contrary to the brand's original intention and integrity and it's up to the creator to establish those boundaries. Consistency is also another key factor. Without that there can't be any motivation.

**SM- Who was a part of this project that contributed to its success?**

Big shout out to MreckTV, the city of Philadelphia, New York, Doggie Diamonds, my new client Un Kasa who I am managing, DJ Swag 100, YB Hood, and the entire Brim Game staff.

**SM- What is the inspiration behind what you do?**

Seeing different artists come to us for consultation based off of the work we have done for others. Now this being my sixth mixtape coming and having an official DJ -- shout out to DJ Swag 100, I see us only manifesting greatness.

**SM- What are some other things people can expect from you in the near future?**

Expect Brim Game 6 and some crazy surprise features that you may have never thought you would see on an independent mixtape. Expect more mixtapes to drop next year as well. Duffle Bag Dollaz has a project dropping and Un Kasa will be dropping something on the Brim Game mixtapes in the future. We are also opening submissions to Brim Game 7 so everyone taps into the linktree and hit us up with via e-mail and make sure they have their submission fee of \$250 ready! They must have cashapp or PayPal!

**SM- Why is this so valuable to you? And why now?**

I believe the covid pandemic changed a lot of business opportunities for us and also created them. If it wasn't for the covid I might have not developed the Brim Game mixtape with my business partner YB Hood.

**SM- What message are you hoping to get across to the people by doing what you do?**

Follow your dreams and passions that lie within you. Work hard and make it a reality which is what I'm trying to do.

**SM- Tell us about what you're promoting and the details around it?**

I am currently promoting my songs released October 2023. I LIKE, DON'T LET THEM GO AND SAVE US. These songs are on YouTube, music, and all platforms. I am also currently working on a few songs to be released. Hopefully, this year, or the first part of next year.

Never live your life based on other people's opinion. I am a believer in me! If I had listened to others, I would be doing my show, I wouldn't have had my name featured on the Hard Rock Cafe marquee. I wouldn't be a best-selling author. March to your own drum.

Right now, I'm promoting my show Intimate Connectionz, and my Book Joy 365.

**SM- Why is this so valuable to you? And why now?**

I had to overcome the opinions of others. I used to be so concerned about the opinions of others, and now I don't give a damn lol!

**SM- What are some other things people can expect from you in the near future?**

New music, new dance videos, overall new content.

**SM- Why is this so valuable to you? And why now?**

One of the biggest challenges was taking this journey with no help; booking a Nike campaign, Dance tours and more all without an agent, label or manager.
